

Overview of Hazard Incidents in July 2018

In the month of July 2018, eight hazards have been occurred with the total frequency of 54 among which 3 types were manmade (fire, boat-capsize, building collapse) and 5 were natural (lightning, heavy rainfall, flood, flash flood, and landslide). These hazard incidents took lives of 26 persons and injured about 19 people.

One of the most devastating hazards was flood which occurred in 12 districts of northern, north-eastern and south-eastern part of the country with huge damage of assets and marooned thousands of people. Another devastating hazard was landslide which took 9 lives as highest death caused by this hazard. Also, lightening caused death of 7 people with 5 incidents in 4 districts.

Fire was also remarkable in terms of frequency of 8 incidents in 6 districts. Fire incident injured 2 persons in the foam industry in Gazipur. Another frequently occurred hazard was heavy rainfall at 6 times in Chattogram, Dhaka, Kurigram and Lalmonirhat which caused waterlogging in Chattogram and Dhaka.

Along with these, the incidents of flash flood took place in 3 districts with the disruption of daily life but no death was reported so far. Also, four incidents of building collapse in two districts caused death of 4 persons and injured 9 persons; and boat capsized occurred twice in this month with the death of 6 persons and 5 injured.

GOB Responses in July 2018

Response to Flood: Mr. Mofazzal Hossain Chowdhury (Maya) Bir Bikram, MP, honorable Minister, MoDMR; informed in a press briefing that as early preparedness of flood 75,000 packets of dry foods were sent to 35 flood prone districts and from 1 July to 10th July BDT 11,200,000 and 5,500 ton GR rice were distributed among the 64 districts. He also informed that 50,000 bundle of CI sheets and BDT 150,000,000 is allotted for the repairing of the damaged house and new house building. Disaster Management Department reserves 1,000 ton rice and BDT 20,000,000 for emergency response. Along with this each district has allotted with 150 -200 ton and BDT 300,000 -500,000.

Response to Landslide: Each family of the dead persons were given BDT 25,000 and BDT 5,000 for the treatment of injured by district relief fund and Minister of Relief informed that 25-50 thousands of vulnerable Rohingya are identified and the ministry to shift them in a safe place process is going on. Already 30 to 35 thousands of families are shifted to shelter.

Response to Lightning: Each family of the dead persons was given BDT 10,000 by the district fund of Disaster Management and Relief.

Conclusion

Especially lightning and landslide frequency was comparatively low in the month of July than previous month June; another devastating hazard was flash flood which has been decreased in frequency than June, 2018. Death caused by Building collapse and boat capsized was mentionable. Although the highest lives taking hazard was land slide, the damages and disruptions caused by flood, flash flood, heavy rainfall was high in amount. However, the Government undertook response interventions for flood, landslide and lightning affected people.
